

## ICSS Mobile World.

Services International Carrier Sales & Solutions (ICSS)

Life is for sharing.

# ICSS Mobile World – one package for all your mobile needs.

Whether your subscriber's communication requirements are personal, social or motivated by business – ICSS is your specialist for seamless mobile communication. Count on ICSS and benefit from the ICSS Mobile World portfolio:

- A competitive set of mobile products combining basic and new aspiring services
- Providing maximum flexibility to bundle the products to your specific needs
- Presenting a unique offer with one contract at attractive pricing conditions
- A comprehensive set of reliable and innovative future-oriented data, roaming and messaging services

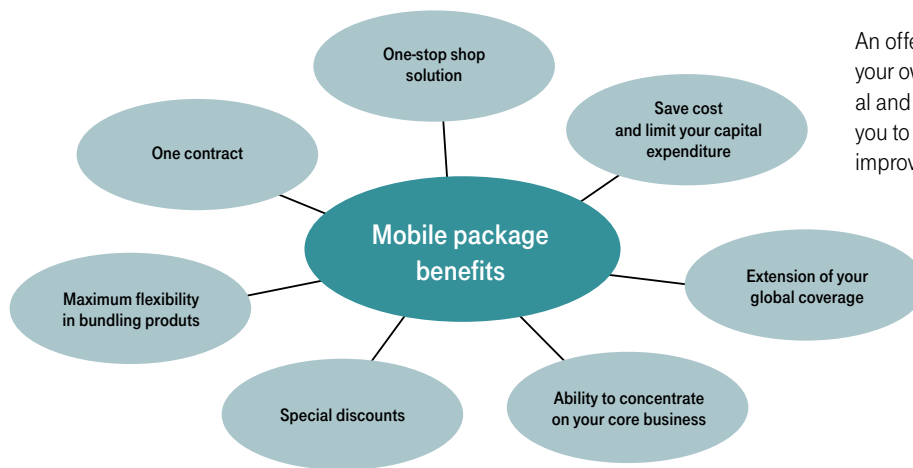

We mobilize your customers providing them with the freedom of seamless mobile communication on a global basis.

- Signaling for International Roaming: This service provides you with a high-quality, low-cost solution for all your signaling for international roaming needs. Using our service you gain access to more than 620 mobile network operators or the facilities of value-added service providers in more than 200 countries on five continents.

## Choose what you need!

Bundling products from the ICSS Mobile World portfolio is most flexible. Based on your individual requirements we offer to you a package that is truly customized to your specific requirements, and – any of the products is available unbundled as well. Are you already taking advantage of one of ICSS's mobile products? Enrich your end user experience by offering them additional services. ICSS offers to you to increase your mobile portfolio at special conditions.

## Benefits for our customers

## Truly mobilize your customers' life!

Design your own value proposition according to your subscribers' needs. ICSS Mobile World enables you to create your own bundle choosing either four, three, or two mobile products out of the complete package:

- IP eXchange: ICSS's IPX service offers you a premium quality solution that promises reliable delivery of traffic while offering the flexibility to apply an appropriate level of quality as demanded by the applications for each different class of service.
- MMX: Our MMX solution allows you to interconnect to a wealth of partner, providing your end users with a fast and seamless MMS service. Our platform handles CDR collection, mediation, rating, IW testing and reporting.
- SMX (SMS eXchange) two-way: Using our SMX two-way service, we enable you to increase your global SMS footprint significantly and to provide your customers with an unlimited global SMS service.

## About Deutsche Telekom ICSS.

ICSS, the international wholesale arm of Deutsche Telekom Group, is one of the biggest voice carriers worldwide and an increasingly important IP player across a growing European market with excellent interregional connections between Europe, the Americas and Asia. With continuously changing markets, ICSS has redesigned its portfolio from traditional voice and transport services to advanced innovative wholesale services and customized IP solutions. The business activities and efforts of ICSS focus on serving the following market segments: broadband operators (ISPs, WISPs, and VoIP SPs), mobile operators and MVNOs, content, application and media providers, corporate service providers and VNOs, fixed voice carriers, and carriers' carriers and their customers through a worldwide sales network. The basis for the delivery of the services of ICSS is an expanding ultra-modern infrastructure – Deutsche Telekom's international network.
