

Bill-it-Easy

Product description

Deutsche Telekom's Bill-it-Easy is a content clearing platform that allows you as an Internet service provider or mobile network operator to offer your customers a secure, simple and convenient way to purchase online content, while receiving a share in the revenues of the online content they purchase.

Benefits

- Deutsche Telekom's Bill-it-Easy payment solution is a free-of-charge clearing platform: no setup charges, no fixed recurring fees, no collection risk, no content reselling
- As a service provider, you bill the user for their purchases on a monthly basis and pass on the collected amounts to Deutsche Telekom ICSS while keeping a share of these revenues!
- Implementation is fast and easy, and does not require significant effort. Your involvement will be limited to setting up interfaces for user identification, authorization, billing transactions, and billing the end users
