

ICSS in Poland

International Carrier Sales & Solutions (ICSS) was established in Poland in January 2003 after the start of the deregulation of the Polish telecommunications market. At the moment, we are operating two Points of Presence (PoP) in Warsaw.

Our scope of activities covers international voice and transport solutions, high-speed and high-performance Internet access (IP Transit), VPN Layer 2 and Layer 3 solutions, and other solutions such as WiFi Roaming on Polish and Baltic markets.

For more information on ICSS's portfolio, please see the "[Our Offering](#)" section of the Website.

Our team has a solid experience of in the Polish and international telecommunications environment. We are here to help you face the ongoing market challenges and thus take advantage of any new business opportunities you may encounter. Our team will be happy to answer your needs and come up with the telecommunications solution that best fits your development strategy.
