

ICSS in the USA

Regional office Americas

The Americas regional headquarters for ICSS is located in Red Bank, New Jersey, and has one LBU in the United States and a representative office in Brazil. Since 2000, ICSS has owned a license to operate in the telecommunications markets in the United States and Canada. Our North American network links 13 major business centers. To serve the carrier market in this region, we have established a circuit-switched voice and VoIP platform accessible in most major cities, as well as IP and Transport PoPs.

Our activities cover services such as voice or transport solutions, VPN Layer 2 and Layer 3 solutions, and other solutions, such as WiFi roaming. To find out more about our complete product portfolio, please refer to the "Our Offering" section of this website.

With our experienced staff operating in the United States, Canada, and Brazil, ICSS can provide innovative solutions tailored to your needs. We have the strength, experience, and resources to meet the most demanding requirements of our carrier customers and in turn meet the needs of their customers. Our team will be happy to answer your questions and come up with the telecommunications solution that best fits your development strategy.

Please feel free to contact the offices in the Americas region:
