

PTC' 09 – Collaborating for Change

Jan 18, 2009

January 18 – 21, 2009 in Honolulu, Hawaii USA

PTC'09 is focusing on the vital role of collaboration in bringing new communications services to market. It will simultaneously highlight the impact that collaborative efforts have on the industry, while featuring the importance of collaboration as the means by which ever more complex systems and services are developed and distributed, including user-driven applications that are accelerating demand in the global marketplace. Network with industry leaders, strengthen relationships, create new partnerships and collaborations, open new markets, uncover new resources, build your knowledge base.

ICSS activities

Helmut Angst, Chairman of the Board of Directors, Deutsche Telekom North America and Head of Deutsche Telekom ICSS, will participate in the panel session “The future of wholesale – going beyond connectivity” on Monday, January 19th, 2009 at 1: 30 to 3:00 pm.

Wholesale telecommunications is changing and it is changing quickly – with the new business models going beyond straightforward connectivity and will now reach into outsourcing, applications management, content delivery, hosting and consultancy services. This panel will explore how the new marketplace is changing and what to expect from the carriers that are leading the change and how they are managing change.
